ART & MOCKUPS

Mockups should specify print location, print size, any relevant PMS Pantone colors, and specific placement if necessary. Any Necessary art modifications and/or creations are subject to an hourly art charge evaluated and quoted on a case by case basis.

PURCHASE ORDERS & SORTING

All orders will be checked in to the supplied PO and Packing slips. If you require any sorting / separations of items, additional sorting / labor may apply.

PMS PANTONE COLORS

While we do our best to PMS Pantone match as closely as possible, at no additional charge. Please keep in mind, colors can vary from garment to garment, fabric color, content, etc. We cannot guarantee the final PMS color will match exactly after printing and ink curing. PMS colors are matched prior to printing.

IMPRINT LOCATIONS & PLACEMENTS

All garments are manufactured across different production facilities, process, standards, etc. Placement can vary from garment to garment. We allow a small variance during production, but do not guarantee the garments themselves are symmetrical. Standard variation for artwork placement on any garment is 1/4" with a max variation of 1/2" in any direction.

PREPRODUCTION / PREPRESS SAMPLES

Preproduction / Prepress photos are available per the customers request but subject to a 10 minute on press window. After the allotted time if the order is not approved and/or any art changes are made and the job needs to be pulled from the press, the customer will be charged the Preproduction Sample Rate of \$150 + All Corresponding Screen Charges, and any additional Art & New Screen Charges.

QUOTES & PRICING

Quotes are valid for 14 business days and subject to change. Pricing is subject to change without notice and is not guaranteed until the order has been approved and accepted by Embroico. Once the order has been agreed and accepted by Embroico and/or any of its affiliates, pricing is not subject to change.

CONTRACT SPOILAGE & RETURN POLICY

Most decoration orders are subject to a 2% spoilage rate per production event.

SPOILAGE RATE: While every attempt is made to produce perfect orders every time, screen printing is an industrial process and hence is prone to some level of error. In accordance with industry standards, Embroico is not responsible for loss of product within this 2% deviation per production event. Damage is always rounded to the nearest whole number.

Percentages are based on quantity of imprints, not quantity of garments. We strongly recommend that you order extra garments in each size, style and/or color in the event of misprints. Exact Quantities are not guaranteed and are not available on Rush Orders.

MANUFACTURER SPOILAGE: Spoilage rate is based on production events only. Manufacturers defects on customer supplied goods should be addressed with the manufacturer. Manufacturer defects that are noticed prior to printing will not be printed. It is entirely possible due the the method that garments are loaded on decoration equipment that manufacturer defects will not be noticed before printing, or at all.
